RAAC concrete - School Buildings

Dear parents/carers,

You may be aware from media coverage that the government has asked some schools to close or partially close due to the presence of reinforced autoclaved aerated concrete (RAAC) in their school buildings.

We understand that this is an unsettling news story and that it may naturally have led you to wonder about the safety of our school building.

Our school building **does not contain RAAC** and is fully safe to open.

Thank you,

Hannah Burnham
School Business Manager
